

Open-Call
BURATINAS-TOUR DE BELGIQUE
nadine vzw

Buratinas- Tour de Belgique is organised by nadine, and will take place in Belgium from 27th of June until end of July during Wandering Arts Biennial, a festival of slow-mobility related art projects organized in Brussels from mid-June until end of September.

During one month a crew of artists will use Buratinas, our solar powered boat, for an expedition-residency connecting the cities of Brussels, Charleroi, Mons, Tournai, Gent and, Brussels

At this occasion, Buratinas will become a mobile studio, exploring from the water level point of view those territories, and paying attention to their various constitutive layers such as history, social life, culture, ecology, landscape etc.

Micro-events will be organized by the crew during the main stops, to present our project and meet the public.

The project will be documented online, and will eventually become a printed publication.
A first exhibition of the project and its productions will be set up mid-September in Brussels.

Buratinas : (rus. Буратино) Pinocchio

Buratinas is a solar powered boat. It's an artistic project developed by nadine vzw since 2011, questioning sustainable energy, slow mobility, ecology, public space, water ways in cities, landscape, and territories.

The boat is 4.80m long and 2.40m wide, moves at a speed between 0 and 10km/h and has a cabin where 4 persons can sleep.

Who can participate ?

this call is open for any person that can be interested by the project : visual, and sound artists, performers, writers, architects, urbanists, historians, anthropologists etc..

How to apply ?

We ask you to send us a short proposal, to give us an idea of the direction your work could take during this project, and a link or a document to present your practice.

We also need to know the dates you would be able to participate, in order to set up a calendar of the participations.

Practical infos :

-the boat is slow and vulnerable to the weather, you can expect some temporal and climatic contingencies.

-you can participate to Buratinas - Tour de Belgique for the duration you like, between the 27th of June and end of July. The ideal would be for you to be onboard at least few days in order to absorb this specific framework and play with it.

-If there are a lot of participants, we will mix boat, bike and foot walks to not over-populate the boat.

-we will mainly sleep in tents and in the boat

-food costs will be taken in charge by the organization.
